Index to Volume 34

Authors and Titles

Abbott, L. K., Robson, A. D., and Hall, I. R.—
Introduction of vesicular arbuscular mycorrhizal fungi into agricultural soils 741

Anderson, N.—
The availability of trichostrongylid larvae to grazing sheep after seasonal contamination of pastures 583

Argel, P. J., and Humphreys, L. R.—
Environmental effects on seed development and hardseededness in *Stylosanthes hamata* cv. Verano. I. Temperature 261
II. Moisture supply and illuminance 271
III. Storage humidity and seed characteristics 279

Atmamihardja, S. I., Pym, R. A. E., and Farrell, D. J.—
Calorimetric studies on selected lines of Japanese quail 799

Auld, B. A., Kemp, D. R., and Medd, R. W.—
The influence of spatial arrangement on grain yield of wheat 99

Barr, Margaret. *See* Mann, S. O. 211

Barrs, H. D. *See* Mason, W. K. 183

Barton, N. J., and Brimblecombe, C. J.—
The effects of anthelmintic treatment and season on the quantity and quality of wool grown by Merino sheep 557

Bergersen, F. J., and Turner, G. L.—
An evaluation of ^{15}N methods for estimating nitrogen fixation in a subterranean clover–perennial ryegrass sward 391

Bird, A. F. *See* Stynes, B. A. 653

Boston, R. C. *See* Weber, K. W. 295

Bowles, J. E. *See* Langlands, J. P. 751

Brimblecombe, C. J. *See* Barton, N. J. 557

Brook, K. *See* McKeon, G. M. 491

Carnahan, J. A. *See* Martin, R. J. 249

Collins, W. J., Rhodes, I., Rossiter, R. C., and Palmer, M. J.—
The effect of defoliation and seed yield of two strains of subterranean clover grown in monocultures and in binary mixtures 671

Coombe, J. B., and Mulholland, J. G.—
Utilization of urea and molasses supplements by sheep grazing oat stubble 767

Corbett, J. L., and Pickering, F. S.—
Estimation of daily flows of digesta in grazing sheep 193

Cripps, J. E. L., Doepel, R. F., and McLean, G. D.—
Canning peach decline in Western Australia. II. Methods of prevention 517

Dallwitz, M. J. *See* Utech, K.B.W. 63

Davies, H. Lloyd. *See* Lindsay, J. A. 809

Davis, C. B. *See* Johnson, E. R. 825

Dawson, J. E. *See* Moran, J. B. 73

Dobie, P. *See* Redden, R. J. 681

Doepel, R. F. *See* Cripps, J. E. L. 517

Donald, G. E. *See* Langlands, J. P. 751

Donnelly, J. R., Morley, F. H. W., and McKinney, G. T.—
The productivity of breeding ewes grazing on lucerne or grass and clover pastures on the tablelands of southern Australia. II. Wool production and ewe weight 537

Douglas, T. J. *See* Walker, R. R. 145

Doyle, P. T., and Egan, J. K.—
The utilization of nitrogen and sulfur by weaner and mature Merino sheep 433

Doyle, P. T. *See also* Egan, J. K. 307

Dubé, A. J. *See* McKay, A. C. 403

Duncan, Linda. *See* Mann, S.O. 211

Egan, J. K., Pearce, G. R., Doyle, P. T., and Thomas, R.—
Measurement of the quantity and composition of digesta in the reticulo-rumen of sheep fed on a roughage diet 307

Egan, J. K. *See also* Doyle, P. T. 433

Ellison, F. W. *See* McDonald, G. K. 229

Evans, R., and McGuirk, B. J.—
Estimating the association between wool and skin characters and fleece rot 47

Farrell, D. J. *See* Atmamihardja, S. I. 799

Fell, B. F. *See* Mann, S. O. 211

Fisher, J. M. *See* McKay, A. C. 403

Ford, Clive W.—
Effect of particle size and delignification on the rate of digestion of hemicellulose and cellulose by cellulase in mature pangola grass stems 241

Gatehouse, A. M. R. *See* Redden, R. J. 681

Grieve, A. M., and Walker, R. R.—
Uptake and distribution of chloride, sodium and potassium ions in salt-treated citrus plants 133

Hall, I. R. *See* Abbott, L. K. 741

Hennessy, D. W., Lee, G. J., and Williamson, P. J.—
Nitrogen loss from protein meals held in Terylene bags in the rumen of cattle and the nutritive value of the residues 453

Hocking, Peter J.—
Features of the growth and mineral nutrition of Noogoora burr (*Xanthium occidentale* Bertol.), a noxious weed in central New South Wales 155

Hogan, J. P. *See* Stephenson, R. G. A. 549; Tangendjaja, B. 289

Holmes, P. R. *See* Langlands, J. P. 751

Hood, R. L. *See* Thornton, R. F. 447

Howard, B. *See* More, T. 441

Humphreys, L. R. *See* Argel, P. J. 261, 271, 279

James, J. W. *See* Mueller, J. P. 53

Jarvis, S. C., and Robson, A. D.—
The effects of nitrogen nutrition of plants on the development of acidity in Western Australian soils. I. Effects with subterranean clover grown under leaching conditions 341
II. Effects of differences in cation/anion balance between plant species grown under non-leaching conditions 355

Johnson, E. R., and Davis, C. B.—
A simple caliper for determining carcass composition in live cattle and skin-on carcasses 825

Jones, Gwyn P. *See* Rivett, Donald E. 427

Jones, P. N. *See* Thornton, R. F. 447

Jones, R. J., and Megarrity, R. G.—
Comparative toxicity responses of goats fed on *Leucaena leucocephala* in Australia and Hawaii 781
See also Megarrity, R. G. 791

Kalmar, D. *See* Lahav, E. 717

Kemp, D. R. *See* Auld, B. A. 99

Kerr, J. D. *See* Sutherst, R. W. 317, 329

Knight, R.—
Some factors causing variation in the yield of individual plants of wheat 219

Lahav, E., and Kalmar, D.—
Determination of the irrigation regimen for an avocado plantation in spring and autumn 717

Langlands, J. P., Bowles, J. E., Donald, G. E., Smith, A. J., Paull, D. R., and Holmes, P. R.—
Copper oxide particles for grazing sheep 751

Lawn, R. J.—
Agronomic studies on *Vigna* spp. in south-eastern Queensland. III. Response to sowing arrangement 505

Lawn, R. J.—
Response of four grain legumes to water stress to south-eastern Queensland. IV. Interactions with sowing arrangement 661

Lawson, W. J. *See* Mann, S. O. 211

Leaver, D. D. *See* Weber, K. W. 295

Lee, G. J. *See* Hennessy, D. W. 453

Leibholz, Jane. *See* Lindsay, J. A. 809

Lindsay, J. A., Davies, H. Lloyd, and Leibholz, Jane—
The digestion of barley-based diets by cattle: the effect of level of feeding of three diets containing different amounts of formaldehyde-treated soybean meal 809

Macdonald, D. C. *See* Mann, D. O. 211

McDonald, G. K., Sutton, B. G., and Ellison, F. W.—
The effect of time of sowing on the grain yield of irrigated wheat in the Namoi Valley, New South Wales 229

McGuire, J. H. *See* Redden, R. J. 707

McGuirk, G. J. *See* Evans, R. 47

McKay, A. C., Fisher, J. M., and Dubé, A. J.—
Control of the nematode associated with annual ryegrass toxicity 403

McKeon, G. M., and Brook, K.—
Establishment of *Stylosanthes* species: changes in hardseededness and potential speed of germination at Katherine, N. T. 491

McKinney, G. T. *See* Donnelly, J. R. 537

McLean, G. D. *See* Cripps, J. E. L. 517

McWilliam, J. R. *See* Wright, G. C. 615

Mann, S. O., Wilson, A. B., Barr, Margaret, Lawson, W. J., Duncan, Linda, Smith, A., Fell, B. F., Walker, H. F., and Macdonald, D. C.—
Thiaminase activity in the gut of cobalt-deficient sheep 211

Mares, D. J.—
Preservation of dormancy in freshly harvested wheat grain 33

Margan, D. E. *See* Stephenson, R. G. A. 549

Martin, R. J., and Carnahan, J. A.—
The effect of field storage and laboratory conditions on germination of five *Xanthium* species 249

Mason, W. K., Meyer, W. S., Smith, R. C. G., and Barrs, H. D.—
Water balance of three irrigated crops on fine-textured soils of the Riverine plain 183

Maywald, G. F. *See* Sutherst, R. W. 317, 329; Utech, K. B. W. 63

Medd, R. W. *See* Auld, B. A. 99

Megarrity, R. G., and Jones, R. J.—
Toxicity of *Leucaena leucephala* in ruminants: the effect of supplemental thyroxine on goats fed on a sole diet of *Leucaena* 791
See also Jones, R. J. 781

Meyer, W. S. *See* Mason, W. K. 183

Moran, J. B., Satoto, K. B., and Dawson, J. E.—
The utilization of rice straw fed to Zebu cattle and swamp buffalo as influenced by alkali treatment and *Leucaena* supplementation 73

More, T., Howard, B., and Siebert, B. D.—
Effect of level of water intake on water, energy and nitrogen balance and thyroxine secretion in sheep and goats 441

Morgan, J. M.—
Osmoregulation as a selection criterion for drought tolerance in wheat 607
See also Wright, G. C. 637

Morley, F. H. W. *See* Donnelly, J. R. 537

Moore, R. M., and Williams, J. D.—
Competition among weedy species: diallel experiments 119

Mueller, J. P., and James, J. W.—
Effects of reduced variance due to selection in open nucleus breeding systems 53

Mulholland, J. G. *See* Coombe, J. B. 767

Mundy, G. N.—
Effects of potassium and sodium concentrations on growth and cation accumulation in pasture species grown in sand culture 469

Norman, R. J. *See* Shorter, R. 415

Palmer, M. J. *See* Collins, W. J. 671

Papastylianou, I., and Puckridge, D. W.—
Stem nitrate nitrogen and yield of wheat in a permanent rotation experiment 599

Paull, D. R. *See* Langlands, J. P. 751

Pearce, G. R. *See* Egan, J. K. 307

Pickering, F. S. *See* Corbett, J. L. 193

Pinkerton, A., and Simpson, J. R.—
Effects of subsoil acidity and phosphorus placement on growth, root development and phosphorus uptake by *Stylosanthes humilis* and *Desmodium intortum* 109

Platz, G. J. *See* Rees, R. G. 39

Podger, R. N. *See* Yoo, B. H. 85

Polkinghorne, R. W.—
Factors affecting egg shell colour in crosses between Australorp and Rhode Island Red chickens 593

Puckridge, D. W. *See* Papastylianou, I. 599

Pym, R. A. E. *See* Atmamihardja, S. I. 799

Redden, R.—
The inheritance of seed resistance to *Callosobruchus maculatus* F. in cowpea (*Vigna unguiculata* L. Walp.). II. Analyses of percentage emergence and emergence periods of bruchids in F_4 seed generation of two reciprocal crosses 697

Redden, R. J., Dobie, P., and Gatehouse, A. M. R.—
The inheritance of seed resistance to *Callasobruchus maculatus* F. in cowpea (*Vigna unguiculata* L. Walp.). I. Analyses of parental F_1, F_2, F_3 and backcross seed generations 681

Redden, R. J., and McGuire, J. H.—
The genetic evaluation of bruchid resistance in seed of cowpea 707

Rees, R. G., and Platz, G. J.—
Effects of yellow spot on wheat: comparison of epidemics at different stages of crop development 39

Rhodes, I. *See* Collins, W. J. 671

Richards, R. A.—
Manipulation of leaf area and its effect on grain yield in droughted wheat 23

Rivett, Donald E., Tucker, Daryl J., and Jones, Gwyn P.—
The chemical composition of seeds from some Australian plants 427

Robson, A. D. *See* Abbott, L. K. 741; Jarvis, S. C. 341, 355

Roper, M. M.—
Field measurements of nitrogenase activity in soils amended with wheat straw 725

Rossiter, R. C. *See* Collins, W. J. 671

Rowe, R. W. D. *See* Thornton, R. F. 447

Santos, R. B., and Sutton, B. G.—
Effect of defoliation on reproductive development of the peanut 527

Satoto, K. B. *See* Moran, J. B. 73

Sheldon, B. L. *See* Yoo, B. H. 85

Siebert, B. D. *See* More, T. 441

Simpson, J. R. *See* Pinkerton, A. 109

Shorter, R., and Norman, R. J.—
Cultivar × environment interactions for kernel yield in Virginia type peanuts (*Arachis hypogaea* L.) in Queensland 415

Smith, A. *See* Mann, S. O. 211

Smith, A. J. *See* Langlands, J. P. 751

Smith, R. C. G. *See* Mason, W. K. 183; Wright, G. C. 615, 627, 637

Stegeman, D. A. *See* Sutherst, R. W. 317, 329

Stephenson, R. G. A., Weston, R. H., Margan, D. E., and Hogan, J. P.—
Intake and digestion of mature Flinders grass (*Iseilema* spp.) by sheep and their response to the addition of urea and minerals 549

Stynes, B. A., and Bird, A. F.—
Development of annual ryegrass toxicity 653

Stynes, B. A., and Veitch, L. G.—
A synoptic approach for crop loss assessment used to study wheat. VI. The pathogen data and their relationship to soil and cultural data 167

Stynes, Brian A., and Vogel, Paul—
A bacterial inhibition assay for corynetoxins from parasitized annual ryegrass 483

Sutherland, I. D. *See* Utech, K. B. W. 63

Sutherst, R. W., Kerr, J. D., Maywald, G. F., and Stegeman, D. A.—
The effect of season and nutrition on the resistance of cattle to the tick *Boophilus microplus* 329

Sutherst, R. W., Maywald, G. F., Kerr, J. D., and Stegeman, D. A.—
The effect of cattle tick (*Boophilus microplus*) on the growth of *Bos indicus* × *B. taurus* steers 317

Sutherst, R. W. *See also* Utech, K. B. W. 63

Sutton, B. G. *See* McDonald, G. K. 229; Santos, R. B. 527

Tangendjaja, B., Hogan, J. P., and Wills, R. B. H.—
Degradation of mimosine by rumen contents; effects of feed composition and *Leucaena* substrates 289

Thomas, R. *See* Egan, J. K. 307

Thornton, R. F., Hood, R. L., Rowe, R. W. D., and Jones, P. N.—
The cellular and metabolic organisation of ovine subcutaneous adipose tissue 447

Tonks, J. *See* Woodruff, D. R. 1

Tucker, Daryl J. *See* Rivett, Donald E. 427

Turner, G. L. *See* Bergersen, F. J. 391

Utech, K. B. W., Sutherst, R. W., Dallwitz, M. J., Wharton, R. H., Maywald, G. F., and Sutherland, I. D.—
A model of the survival of larvae of the cattle tick, *Boophilus microplus*, on pasture 63

Vallis, I.—
Uptake by grass and transfer to soil of nitrogen from ^{15}N-labelled legume materials applied to a Rhodes grass pasture 367

Veitch, L. G. *See* Stynes, B. A. 167

Vogel, Paul. *See* Stynes, Brian A. 483

Walker, H. F. *See* Mann, S. O. 211

Walker, R. R., and Douglas, T. J.—
Effect of salinity level on uptake and distribution of chloride, sodium and potassium ions in citrus plants 145

Walker, R. R. *See also* Grieve, A. M. 133

Weber, K. W., Boston, R. C., and Leaver, D. D.—
The effect of molybdenum and sulfur on the kinetics of copper metabolism in sheep 295

Weston, R. H. *See* Stephenson, R. G. A. 549

Wharton, R. H. *See* Utech, K. B. W. 63

Williams, J. D. *See* Moore, R. M. 119

Williamson, P. J. *See* Hennessy, D. W. 453

Wills, R. B. H. *See* Tangendjaja, B. 289

Wilson, A. B. *See* Mann, S. O. 211

Wilson, J. R.—
Effects of water stress on *in vitro* dry matter digestibility and chemical composition of herbage of tropical pasture species 377

Woodruff, D. R.—
The effect of a common date of either anthesis or planting on the rate of development and grain yield of wheat 13

Woodruff, D. R., and Tonks, J.—
Relationship between time of anthesis and grain yield of wheat genotypes with differing developmental patterns 1

Wright, R. C. G., and Smith, R. C. G.—
Differences between two grain sorghum genotypes in adaptation to drought stress. II. Root water uptake and water use 627

Wright, G. C., Smith, R. C. G., and McWilliam, J. R.—
Differences between two grain sorghum genotypes in adaptation to drought stress. I. Crop growth and yield responses 615

Wright, G. C., Smith, R. C. G., and Morgan, J. M.—
Differences between two grain sorghum genotypes in adaptation to drought stress. III. Physiological responses 637

Yoo, B. H., Sheldon, B. L., and Podger, R. N.—
Genetic parameters for egg weight *v.* age curve, and other egg production and egg weight traits, in synthetic lines of chickens 85

Young, R. R.—
Populations of free-living stages of *Ostertagia ostertagi* and *O. circumcincta* in a winter rainfall region 569

Printed by CSIRO, Melbourne
